SUMMARY Q2 2025/26

We have grown our sales in the quarter while the ongoing uncertainty and price sensitivity among consumers continue to weigh on profitability.

E-Com, including cross-channel sales, drove our growth, reflecting a shifting shopping behavior.

The net result was impacted by impairments of goodwill and other assets relating to France (NOCIBÉ) and Parfumdreams / Niche Beauty.

KEY FIGURES (Q2 2025/26)

Group sales: +1.1% to €949.7m

- Stores: +0.5%
- E-Com: +2.4% (incl. x-channel)

Adj. EBITDA: €116.1m (margin: 12.2%)

Adj. Net Result¹: € -10.0m (reported: € -124.6m)

Net Leverage: 2.9x (2.0x pre-IFRS16)

¹ For details on net result adjustments see page 14

MARKET ENVIRONMENT

The premium beauty market is adapting to a **“new normal”**:

1. More mature markets lead to slower growth
2. Political & societal uncertainty makes consumers hesitant
3. Shopping behavior changes towards E-Com
4. Pure players & marketplaces challenge selective beauty distribution
5. Focus on pricing & promotion puts pressure on margins

Reflecting the market and current environment, we have **adjusted our guidance for 2025/26 on 30 April.**

Q2 FINANCIALS

Q2 2025/26 Group Sales & EBITDA development

Sales increase with lower profitability

- Sales slightly up by +1.1% reported growth sustained by E-Com and network expansion
- Stores grew +0.5% and E-Com +2.4% YoY
- Net Sales driven by CEE (+5.9%) and DACHNL (+1.4%), partly offset by declines in PD/NB (-2.1%) and SE (-1.3%)

- Ongoing customer uncertainty and price sensitivity pressured gross margins
- Cost controls partially offset margin pressure, but dilution remains, as expansion-related fixed costs are not yet absorbed amid lower revenue and phasing effects

Growth driven by E-Com and network expansion

in m€ GROUP

- Price increase in both channels was partially offset by volume declines
- Cross-Channel services¹ +29.8% vs. PY, representing now approx. 5 % of net sales

in m€ STORES

- Stores: 66.3% of Group sales (PY 66.7%)
- Sales growth driven by store openings and refurbishments, market share gains in Germany, France and some other countries
- Lower traffic and lower conversion rate

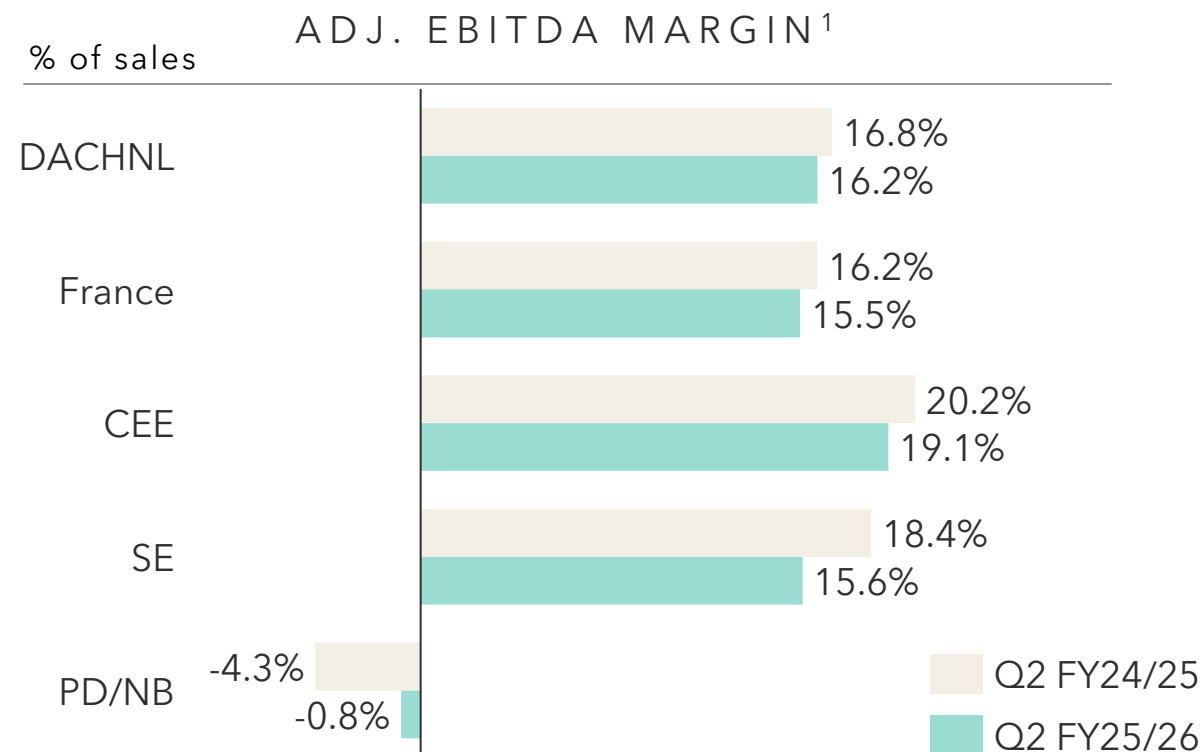

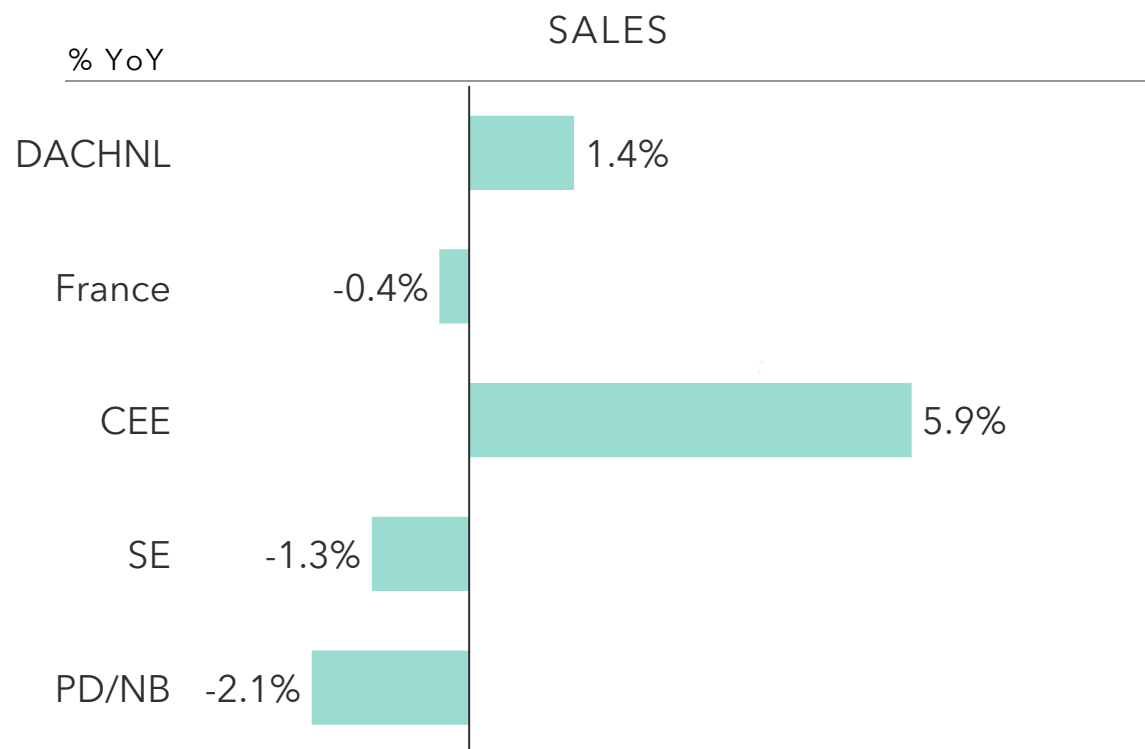

in m€ E-COM

- E-Com: 33.7% of Group sales (PY 33.3%)
- Growth driven by increase in orders and higher average basket size
- Strong increase of sales through the Douglas App (43% of E-Com sales)

Segment development in Q2 2025/26

- CEE continues to deliver the highest sales growth rates with positive LFL growth in the stores channel
- Positive development in DACHNL
- France almost flat, SE and PD/NB slightly negative

- Adj. EBITDA margins impacted by lower gross margin
- Competitive pressure from E-Com pure players
- CEE remains the highest margin segment, positively contributing to the group's average the more it grows

Margin pressure persists due to discount-driven sales

- Sales generated positive gross profit while margins remained under pressure due to pricing investments, promotional activity, and mix effects
- Supplier contributions increased vs. PY

Staff costs rise due to network expansion, other net operating expenses decreased

NET OPERATING EXPENSES¹

in m€

Staff costs

Other net operating expenses

STAFF COSTS

Slightly higher staff cost to revenue ratio YoY

- Additional hiring of store employees due to store openings (c. half of the increase)
- Variable remuneration in actuals adjusted quarter-by-quarter, whereas in PY a YTD benefit was in Q2
- Staff costs in like-for-like stores slightly below PY

Current Measures

- Reduction of working hours in stores with declining footfall
- Temporary staff cost cuts
- New openings to ramp up store levels

OTHER NET OPERATING EXPENSES

Improved net marketing cost to revenue ratio

- Marketing cost efficiency

Slightly higher property (excl. rent) cost to revenue ratio

- Network expansion mainly focusing on CEE

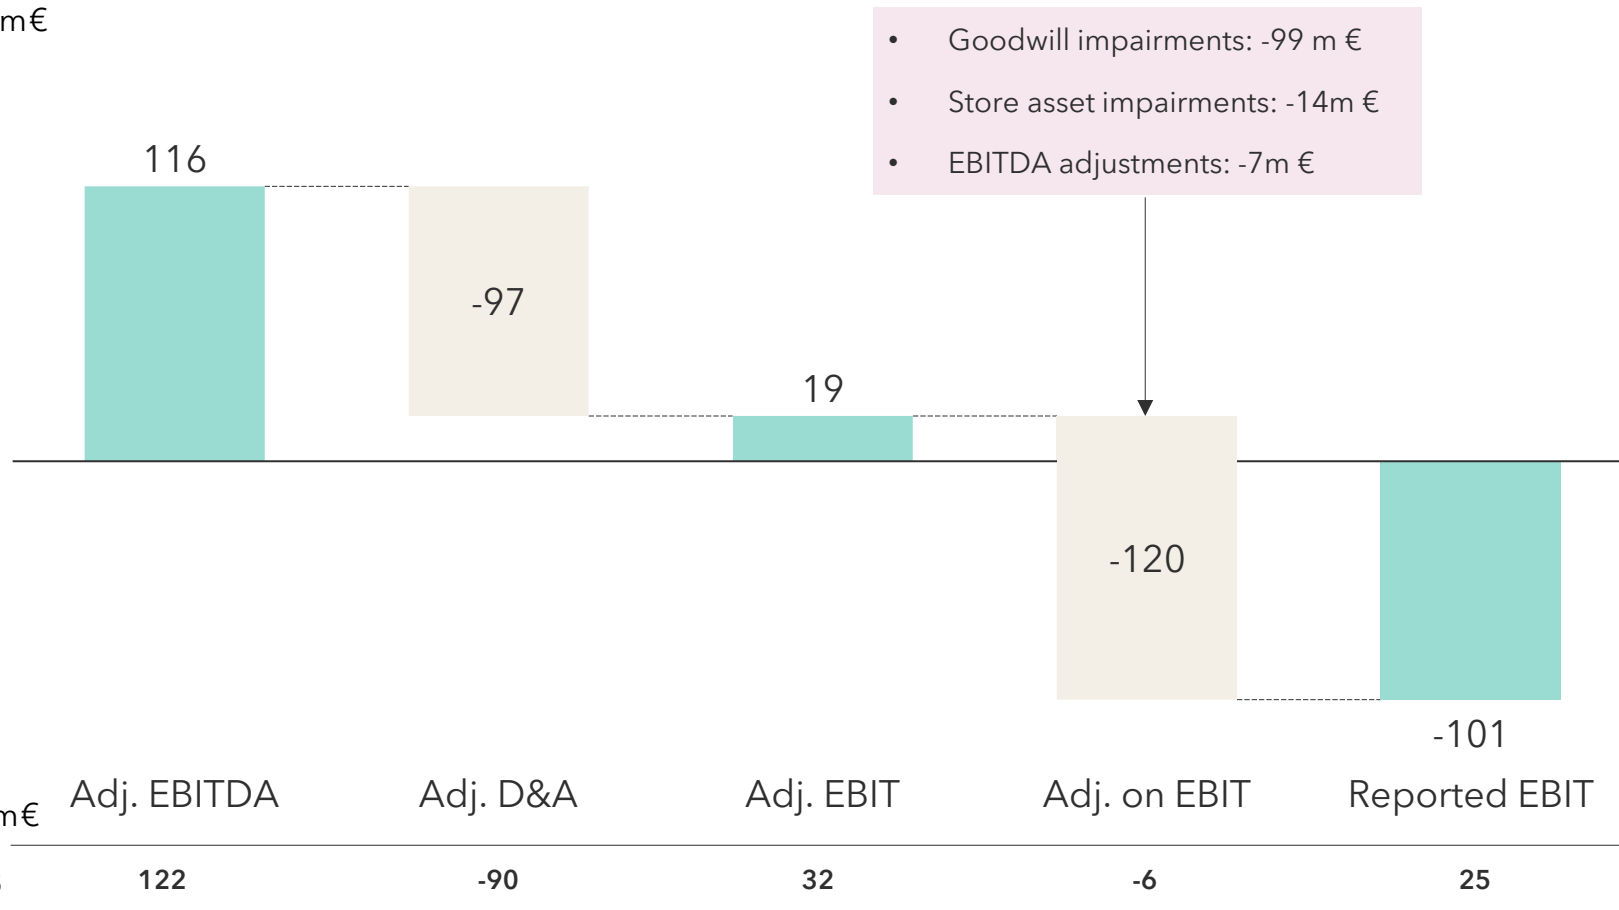

Improved IT cost to revenue ratio despite ongoing investments in our tech stack

- Efficiency gains via further integration of IT infrastructure

Impairments drive Q2 non-cash charges

Elevated D&A and goodwill write-downs weigh on profitability

in m€

- Goodwill impairments: -99 m €
- Store asset impairments: -14m €
- EBITDA adjustments: -7m €

- Reported EBIT significantly impacted by non-cash effects
- Goodwill impairments linked to prior acquisitions (~€99m, FR: €87m & PD/NB: €12m, Asset Impairments on Stores: FR €12m, PD/NB €1m and DACH €1m) are the primary driver
- Underlying D&A increase due to new stores rights of use and other investments

Despite sales growth, consumer price sensitivity weighs on earnings

Q2 2025/2026

in m€	Q2 2024/25	Q2 2025/26	Change
Net sales	939.0	949.7	1.1%
Gross profit	424.5	422.8	-0.4%
Gross profit margin	45.2%	44.5%	-70bps
Net operating expenses (adjusted)	-302.1	-306.7	-1.5%
Adjusted EBITDA¹	122.4	116.1	-5.1%
Adjusted EBITDA margin	13.0%	12.2%	-80bps
Adjustments to EBITDA	0.4	6.8	n/m
Reported EBITDA	122.0	109.4	-10.4%
Amortization/depreciation/impairment (adjusted)	-90.3	-97.0	-7.5%
Adjusted EBIT	32.1	19.1	-40.5%
Adjustments to EBIT	6.6	119.8	n/m
Reported EBIT	25.5	-100.7	n/m
Financial result	-30.3	-33.8	-11.5%
Income taxes	-14.2	9.9	n/m
Reported net result	-19.0	-124.6	-n/m
Adjusted net result²	-12.2	-10.0	17.9%

- **Gross profit margin:** Challenging consumer environment and higher cost of raw materials weighed on gross profit margins which decreased by 70bps
- **Net operating expenses:** Cost discipline remains effective, but savings could not fully offset gross profit pressure
- **D&A:** besides the higher impairments, increase due to larger store base hence higher rights of use of assets as well as significant capex in prior year
- **Financial result:** decreased financial result by 11.5% due to lower positive currency effects compared with prior year
- **Tax:** goodwill impairment not tax relevant; ETR excluding goodwill impairment equal to 29.7%
- **Net income:** reported result affected by non-recurring items; adjusted net loss of €10m, broadly in line with PY though last year quarterly tax accrual followed a different phasing

¹ For details on EBITDA adjustments see page 43

² Adjusted net income is net income for the period, adjusted for non-recurring, extraordinary, and non-operating items, including impairment losses. Tax effects of the adjustments are accounted for by applying the tax rate to the total of adjustments, excluding adjustments related to goodwill. Income taxes accrual in PY followed a different phasing in the year, therefore not fully comparable

Average Net Working Capital now at 3.5% of sales

As of 31 March 2026

AVERAGE NET WORKING CAPITAL

in m€

- DIO stable at 123 (PY: 123), with new openings leading to increased inventory
- Other short-term liabilities are higher due to roll-out of the supply chain financing program (utilization as of Mar-26: € -148m; Impact on LTM average NWC: €-129m)

CAPEX

in m€

- Majority of CAPEX was spent on store refurbishments (12) and own store openings (11)
- Ongoing investment in further platform rollout, IT stack and international E-Com
- In light of the fewer openings and refurbishments compared to PY, as expected, capex are reducing YoY

Free Cash Flow development¹

H1 2025/2026

H1 2024/2025

¹ Amounts rounded; totals may not sum due to rounding

² Cash view (including change in capex payables)

³ Excluding supply chain financing; for details on Net Working Capital development see page 45

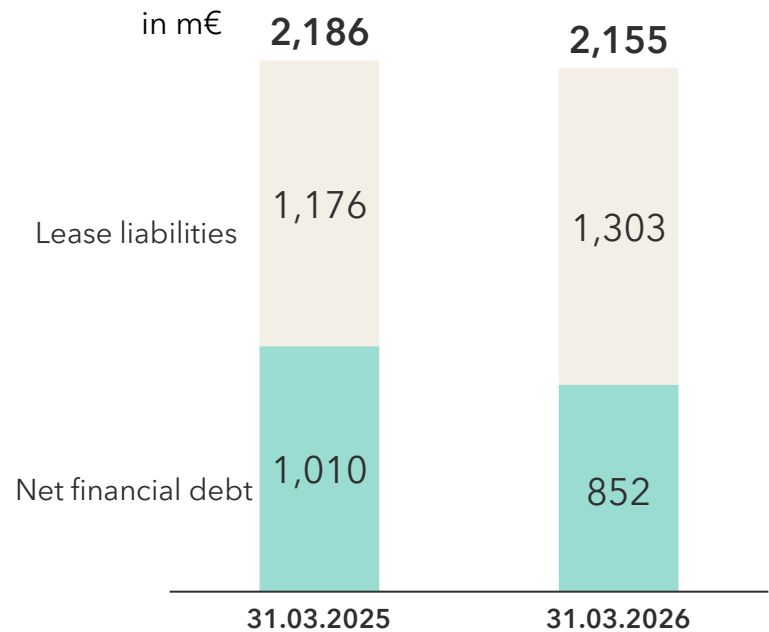

⁴ Consists of increase/decrease in provisions, other non-cash expense /income, loss/profit on the disposal of non-current assets, changes in other assets/liabilities not classifiable to investing or financing activities, proceeds from the disposal of non-current assets

⁵ For details on EBITDA adjustments see page 43

⁶ Including payment for the redemption of lease liabilities for €136.3m (PY: €128.7m) and finance cost component of leases for €31.3m (PY: €29.4m)

Sound financial structure

NET DEBT STRUCTURE

- Higher lease liabilities reflect store openings and contract extensions
- Net financial debt lower thanks to cash generation and supply chain financing program

NET LEVERAGE

- Slightly higher net leverage of 2.9 (PY: 2.8) mainly due to increase in IFRS 16-related lease liabilities
- On a pre-IFRS16 basis net leverage increased to 2.0x (PY: 2.0x)

Updated Outlook 2025/2026

DOUGLAS Group	2024/2025 reported	2025/2026 guidance
Net sales	€4.58bn	€4.65bn to €4.80bn (lower end)
Adjusted EBITDA margin	16.8%	around 16.0%
